## Can you dance?

**CALYPSO BY REPON**

Inspired by the magic, happy Caribbean dance music known world-over as the "Calypso", Repon has developed a concealed under mount drawer slide system of the same name to add an upbeat dimension of fun and creativity to your kitchen cabinets. Repon's Calypso comes loaded with features and possibilities. Calypso has a unique, turn-and-lock system and a very quiet closing damper mechanism. This damper represents state-of-the-art new technology: it's a "dry damper" guaranteed to eliminate the worry of grease spillage or gas leakage. And the Calypso is as strong as it is beautiful, with superior cycling performance twice that of the most stringent BIFMA requirements. Plus, Calypso offers a wide variety of accessory packages, ranging from LED lighting options, thru an assortment of side-wall, drawer front and divider configurations to please the most discriminating of designers. Let Repon's Calypso put some magic and music back into your kitchen experience.

The only question now is: Can you dance?

### **REPON - 2011 Branding Taiwan**

The battery based LED stick provides sufficient luminescence, and enable end-users locate items in the drawer without lamp on which fulfill the purpose of energy conservation and environmental sustainability.

Drawer frame incorporated with under mount slides furnishes the benefits of clean and beautiful appearance and easy installation.
