Slides into Your Life

Wire Basket Slides & Drawer Frame System

NJ-A5808

Repon finally introduced its very first metal frame system. 6-way drawer front adjustment and clip-on back panel plate provides the ease and convenience to drawer assembly. Exclusive patented slide profile and shock absorbing enable the best drawer movement.

Powder coated drawer frame make the drawer look neat and elegant loading is 75lbs (35kgs) and guaranteed cycle 50,000 times. For wire basket mounting, you may choose NJA8818.

Repon developed a series of accessories to enrich the selection of metal drawer frame.

NJ-A8818

Repon developed NJA8818 specially for wire basket applications. It has clip-on wire holder for quick basket installation and removal. Same as metal drawer frame system, smoothness and effortless motion makes Repon's NJA8818 the best choice of your kitchen wire basket.

The loading is 75lbs (35kgs), and guaranteed cycle is 50,000 times.

Front Interlock

■ NJ-77Q05

Why Repon claimed its NJ77Q05 the best interlock system in the world. This is simply because it is a front interlock, you may easily incorporate it into the cabinet locking system. Plus, it featured correct movement which means the interlock will still function even the drawer is open partly.

The loading is 160lbs (75kgs), and guaranteed cycle is 75,000 cycles based on BIFMA lateral file criteria.

Slient

■ NJ-35D36 You must not miss this!

With exclusive patented dampening technology, Repon NJ35D36 provides the best shock absorbing performance and resolves the issue of grease leaking. New slide profile and cushion device enable the smoothest movement and most stability. Loading is 100lbs (45kgs) per 450mm, and guaranteed cycle 50,000 times.

■ NJ-85A01

For heavy loading, Repon NJ85A01 is your best choice. It also incorporates Repon exclusive patented damper. Further more, the lime profile (13mm) will not require any modification to your drawer, and allow the same drawer width as 100# loading. The loading is 130lbs (60kgs), and guaranteed cycle is 50,000 times.

Touch To Open

■ NJ-38D58

Unlike other brands of touch-to-open, Repon NJ38D58 incorporates several new ideas including compact touch to release mechanism, new slide profile and cushion design. With a slight press on the drawer front, you may effortless bring the drawer out by at least 2/3 of the drawer depth. Loading is 100lbs (45kgs), and guaranteed cycle is 50,000 times.

■ NJ-78A01

For heavy loading, Repon NJ78A01 is highly recommended. The loading is 150lbs (70kgs), and guaranteed cycle is 50,000 times.

Rear Interlock

■ NJ-87A01

Anti-tilt is an important requirement for lateral file or vertical cabinets. Repon incorporated anti-tilt with slides in order to create cost and time saving for you. Loading is 130lbs (60kgs), and guaranteed cycle 50,000 cycles. For metallic cabinet, you may choose NJ87A06.

Standard Slide Series

■ NJ-31Q01

45.7mmx12.7mm. 32mm boring system. Loading is 75lbs (35kgs) and guaranteed cycle 30,000 times. For metallic cabinet, you may choose NJ31Q04.

■ NJ-31J32

45.7mmx12.7mm. 32mm boring system. Loading is 100lbs (45kgs) and guaranteed cycle 50,000 times. For metallic cabinet, you may choose NJ31J44.

■ NJ-41K07

34.5mm x 12.7mm. 32mm boring system. Loading is 75lbs (35kgs) and guaranteed cycle 50,000 times.

■ NJ-66G12

52.4mm x 19mm. 32mm boring system. Loading is 140lbs (63kgs) and guaranteed cycle 30,000 times. For metallic cabinet, you may choose NJ66G13.

■ NJ-76008

53.6mm x 19mm. 32mm boring system. Loading is 200lbs (45kgs) and guaranteed cycle 50,000 times. For metallic cabinet, you may choose NJ76006.

Leave your quality on the right hands.

Drawer slide is always the determinative accessory to the cabinet quality.

Repon has been renowned for more than 35 years with its high and consistent quality performance and excellent team service. Repon is your top choice of drawer slide to enhance your cabinet quality.
